

<b>Title</b>	Specialized Production Worker (Level 2)	<b>Status</b>	Temporary, Full-time
<b>Department</b>	Production	<b>Location</b>	Scarborough
<b>Reports To Title</b>	Production Manager	<b>Written/ Revised Date</b>	March 21, 2019

## SUMMARY

Working under general direction from the Production Supervisors, the Specialized Production Worker is responsible for working in both injection and blow-molding production areas to manufacture products based on specifications. Moreover, he or she is responsible for completing testing, sub-assembly and assembly duties on all finished products.

## RESPONSIBILITIES

- Operate automated or semi-automated machinery designated to manufacture components
- Receive parts from machinery and monitor product quality on an ongoing basis, ensuring product meets the minimum product quality standards
- Weigh-count parts, then package into mini totes
- Monitor production processes to ensure compliance with all production documentation found at Quality Stations
- Complete all quality testing, sub-assembly and assembly on all products as instructed by the Production Supervisor
- Maintain a clean and safe work environment, and ensure safety throughout the plant
- Perform other duties as required

## ATTRIBUTES

- Able to read, and communicate verbally and in writing in the English language
- Able to manage multiple assignments simultaneously
- Able to troubleshoot with a sense of urgency
- Must be mechanically inclined, with strong attention to details
- Excellent analytical, problem solving, time management and documentation skills
- Proven interpersonal skills and team oriented with the ability to work within a diverse workplace

## QUALIFICATIONS

- A minimum of 1 year of experience in injection and/or blow-molding plastics manufacturing environment
- Requires a high school diploma
- Experience working in a fast-paced and highly changing environment with limited supervision

## PHYSICAL DEMANDS AND WORK ENVIRONMENT

Work conditions are consistent with a manufacturing plant environment. The Specialized Production Worker requires a moderate degree of physical fitness, as the role requires him/her to lift and/or move up to 30 lbs, and will be required to stand, reach and climb for some periods throughout the shift. He/she must also be able to work near moving mechanical machinery, and must be able to work in an environment with high noise levels (hearing protection required).

***NOTE:*** All applicants must have shift flexibility, as you may be required to work either Afternoon or Night shift.

***Scepter is committed to employment equity and encourages applications from women, visible minorities, Aboriginal peoples, and persons with disabilities.***
